

**ANNOUNCEMENT OF POTENTIAL TRANSMISSION TARIFF REVISION  
AND ADVANCE ANNOUNCEMENT OF RATE ADJUSTMENT**

Western Area Power Administration (Western) is initiating a review and potential revision to its Open Access Transmission Tariff (OATT). The OATT applies to transmission service provided over the Integrated System (IS) owned by Western, Basin Electric Power Cooperative and Heartland Consumers Power District, and administered by Western. Western is also beginning the development of potential new and the revision of existing transmission and ancillary service rates for services under the OATT that are currently under consideration.

An informal public information meeting pertaining to potential OATT changes and an Advance Announcement of Rate Adjustment meeting will be held on Tuesday, June 10, 2008, in Sioux Falls, South Dakota.

Potential revisions to the OATT, and IS transmission and ancillary service rate adjustments for services provided under the provisions of the OATT, will be presented. Interested persons will be able to provide input and ask questions at the meeting. A court reporter will be present to record discussions. The meeting time and place are:

**9:00 (CDT), Tuesday, June 10, 2008**

Holiday Inn—City Centre  
100 West 8<sup>th</sup> Street  
Sioux Falls, South Dakota
